LEISURE POOLS®

Lifetime Warranty

The most important single component in any swimming pool project is the actual pool shell itself. It is essentially the centerpiece for your landscaping and surroundings.

The Leisure Pools® Composite Armour™ fiberglass swimming pool provides you with both a Lifetime Structural Warranty and Lifetime Structural Osmosis Warranty, highlighting Leisure Pools® as the only manufacturer with the ability to offer this level of warranty.

So why do Leisure Pools® stand out from the rest?
It comes down to 4 key elements:

- Patented Composite Armour™ Core of Strength
- Full Vinyl Ester Resin Construction
- Composite Armour™ Step Technology™
- Exceptional Quality Control

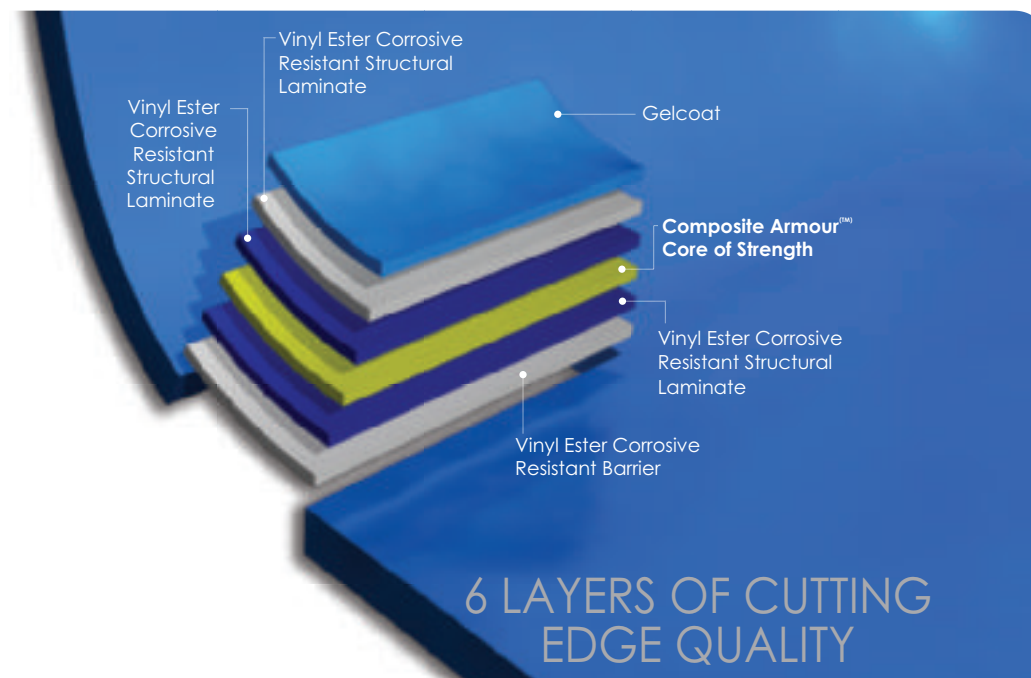

Patented Composite Armour™ Core of Strength

This patented technology we incorporated into our swimming pool manufacturing is designed to significantly reinforce the swimming pool shell with a strategically integrated laminate, consisting of a blend of DuPont™ Kevlar®, carbon fiber and basalt fiber. We call this our Core of Strength.

Each of these high performance fibers support a variety of applications in cutting-edge technology, but when combined, create the Leisure Pools® patented Composite Armour™, bringing a new level of performance to the production of composite fiberglass swimming pools.

By using Composite Armour™ in the swimming pool shell laminate, we have been able to achieve tremendous improvements in both flexural and tensile strength compared to other manufacturer's standard construction of fiberglass swimming pools.

“ The most important single component in any swimming pool project is the actual pool shell itself. ”

Exceptional Quality Control

Leisure Pools® have invested heavily in exceptional quality control, enabling us to offer a Lifetime Structural Warranty and Lifetime Structural Osmosis Warranty.

- Leisure Pools® Technical Center is managed by a polymer chemist
- Leisure Pools® batch tests incoming raw materials against benchmarked materials
- Leisure Pools® Technical Center conducts the following tests on each pool:
 - Flexural and Tensile Strength Test
 - Cure Percentage Tests of Each Layer
 - Barcol Hardness Testing
 - Boil Testing of Laminates (random samples)
 - Burn Testing of Laminates (random samples)
- Weighs all materials to ensure correct quantities in each pool
- Ultra Sonic Thickness Testing ensuring compliance against the Leisure Pools® benchmark standards

Full Vinyl Ester Resin Construction

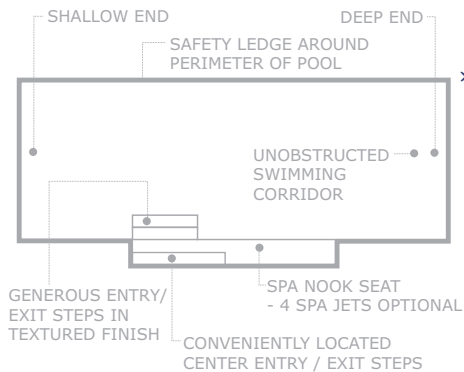

Leisure Pools® is the only company to offer a swimming pool that uses a full vinyl ester resin construction, allowing Leisure Pools® to offer the following amazing benefits:

- Vinyl Ester Resin provides improved structural strength properties over traditional Poly Ester Resin, therefore enabling Leisure Pools® to offer a stronger swimming pool
- By constructing all the layers after the gelcoat color with vinyl ester resin, Leisure Pools® is able to offer a Lifetime Structural Osmosis Warranty.

Composite Armour™ Step Technology

Leisure Pools® believes that when you step into a swimming pool or sit on a bench in a swimming pool it needs to feel solid. With our Composite Armour™ Step Technology™, step and bench deflection have been reduced providing a “solid” foundation for entry and exit steps compared with normally constructed fiberglass swimming pools.

LEISURE POOLS®

SMART Color Range

Leisure Pools® has a long history of offering its swimming pools in a range of colored gelcoats. More than a decade ago, Leisure Pools® introduced Aquaguard® colored gelcoats into the North American market — at a time when most manufacturers only offered the stereotypical white-colored swimming pools. The initiatives of Leisure Pools® in the North American market have facilitated a change in industry standards, and continues to be one of the catalysts driving the increase of market share for the composite fiberglass pool industry.

If you're looking for something a little bit special — then this is the color range for you! Each color within the Leisure Pools® SMART range includes a built-in sparkle that sets off an added brilliance and shimmer effect. No matter what color you choose, when the light shines over your Leisure Pool®, it will appear to have millions of diamonds scattered across the pool surface.

The Leisure Pools® SMART Color Range not only looks beautiful, but has excellent UV, blister, and chemical resistance, and is backed by the largest supplier of gelcoats for the swimming pool industry.
